Hello again valued Resident User Group,

I hope this finds you well at this very busy time for many of you!

We have nothing new to report this week, we continue to work with the architects on design detail towards costing of the plans. Noting the recent escalation of construction costs, this process of costing the designs will enable consideration of Government's priorities, needs of a broad user group, sustainability of the Centre and facilitate the prioritisation of works.

Thank you for your continued patience with this process, and understanding how important it is that we take the time to achieve the best possible outcomes for stakeholders.

Please reach out if you have any questions or concerns

My best wishes,

Toni
